

Themisto Sconce

Design Firm

AvroKO

Country Of Origin

Canada

Description

The Themisto Sconce draws its inspiration from the seamless fusion of Art Deco geometry and contemporary minimalism. The curved, elongated form evokes the elegance of 1920s architecture, with its bold lines and harmonious symmetry, while the subtle interplay of glass and metal references industrial design with a refined, modern twist. This fixture would be at home in both contemporary and classic settings, offering a statement of subtle luxury and understated beauty, ideal for hospitality environments, corridors, or as a refined accent in residential interiors.

Made of opal glass and decorative brass, the entire fixture illuminates, which is internally lit by LED components. It is fastened to a back plate and secured with decorative thumb screws.

Materials Shown

Glossy Opal Glass and Plated Antique Brass

Dimensions

Height: 18" (457mm)

Width: 7" (178mm)

Depth: 2-1/2" (64mm)
