

Nuri Dining Chair

Design Firm

AvroKO

Country Of Origin

China

Description

The design of this chair, crafted specifically for Nuri Steakhouse, is inspired by a fusion of Korean craftsmanship and cyberpunk culture. The sleek wooden frame, combined with a luxurious upholstered seat, pays homage to traditional Korean design. The metal accents, particularly in the armrests and joints, bring a futuristic, cyberpunk edge to the piece, symbolizing the blend of old-world craftsmanship and modern, edgy influences that define the aesthetic of the space.

Upholstered, wishbone seat back and upholstered seat cushions supported by solid wood chamfered legs connected to the back with knurled brass details.
